Directions: Read the following text. Choose the best word(s) for each numbered blank and mark A, B, C or D on ANSWER SHEET 1. ( 10 points )

Some call it the Smart Shooter, a new rifle for American infantry troops that is two weapons in one, is accurate up to 1,000 yards and in 1 fires 2 corners. Its message to enemies is that they can run but they cant hide. Still in the development phase, the rifle for 2006 has just been 3 off with great 4 by the Pentagon to members of Congress who will be asked to 5 the money. The makers, Alliant Techsystems, say that the weapon will revolutionize 6 combat much as the machine gun. Pentagon jargon has given the new gun a(an) 7 title: the Objective Individual Combat Weapon. 8 one trigger, the rifle can fire a standard 5-56mm Nato bullet and a 20mm high explosive shell that will burst in the air. It can 9 shrapnel behind, 10 or even from the side of enemy troops who have taken 11 behind a building. The shell can be 12 to explode after a short delay. The weapons 1,000 yard accuracy is twice 13 of other rifles, made possible by a laser system built into the sight. This rangefinder fixes the target, measures the distance and passes it along to a computer chip in the shell. The gunsight has an infrared lens for night 14. It can also have video camera with a zoom lens that is linked to a video display attached to the soldiers helmet, allowing him to aim 15 without exposing himself to enemy return fire. But there are snags still be 16

out. Two men were 17 when a shell burst in a barrel during firing tests. The rifle weighs more than 181b. There are questions whether its electronic innards will be rugged enough for rain, snow and difficult 18. Michael Klare, a professor of peace and world security issues and a board member of the Arms Control Association, says that the Pentagon is seeking this combination of firepower and automation to compensate for the uncertain aim of GIs. He said: "Soldiers wont have to worry about careful steady aim. Theyll just look 19 the viewfinder and 20 the trigger." 1A reality B affect C effect D operation 2Aat Bin Cbeyond Daround 3Aput Bshown Cchecked Dgiven 4Apride Banxiety Chonor Dexpectation 5Aput up Bcount in Cpay for Dlook for来源 : www.examda.com 6ALand Bbrilliant Cpowerful Dawkward 8AUsed BFixed CUsing DFixing 9Aspray Bspatter Csplash Dsprinkle 10Aover Bon Cabove Dupon 11Aaim Bcover Crisks Dheed 12Aestimated Bcalculated Cseeded Dtimed 13Aas Bthat Cthan Dmuch 14Avision Bsight Cobbservation Dspeculation 15Aexactly Bprecisely Caccurately Dcorrectly 16Aremoved Bironed Cmade Ddrawn 17Ainjured Bhurt Charmed Dwounded 18Aterrain Bdomain Cfield Dterritory 19Aat Bover Cinto Dthrough 20Apush Bpull Cpress Djerk 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
