Sample Question: What are the causes and solutions of the problem of the scarcity of water resource? Feature: Brainstorming: Causes The limited supply of water resources can never match the dramatically increasing demand from the booming industry and unrestrictedly flourishing population. The lack of the sense of using water economically and reasonably, results in uncontrollable waste of the precious water, especially in the regions of relatively abundant water resources. Solutions Optimizing the recycling system and operations of water can maximize the usage of limited water resources. Popularizing the national sense of saving water and using water economically can gradually better the worsening situation in water resources. Outline: Intro: 1. Nowadays more and more people begin to realize /be aware of/ notice the importance/significance/seriousness of the problem of education /pollution /unemployment. 2. There is a growing worldwide awareness of the need for... 3. Recently the issue /problem of... has been in the limelight / brought into focus/ brought to public attentive concern... 4.
