EXERCISE 28 In 1910 the world was shocked by a particularly cold-blooded murder. H. H. Crippen was 1 American doctor who worked in London. He was a married 2, but when he was 3 in England, he fell in love 4 his secretary. Instead of asking his 5 for a divorce, he killed her and buried 6 body in the cellar of his house. Then he and his secretary, who was dressed 7 a boy, sailed on a 8 called "The Montrose" for New York. Only a very 9 time before, however, the wireless telegraph 10 been invented. The Montrose was one the 11 ships equipped with Marconi's wireless, and the passengers were not 12 ignorant of its presence on board, but probably did not 13 know what a "wireless telegraph" 14. The captain of the ship recognized Crippen and secretary 15 a message to the London police. An inspector set out in a faster ship, and 16 up with the Montrose in the Atlantic. 17 up as a sailor, he boarded the Montrose 18 they reached New York, and arrested Dr. Crippen. Eighteen months 19, the British Government passed a law that all passenger ships 20 carry wireless.
