The International Symposium of Teaching and Research of Architectural History In middle of November, there will be an International Symposium of Teaching and Research of Architectural History (ISTRAH), held by China National Architectural Education Boarding and Southeast University. The theme of this symposium is to promote the international collaboration on teaching and research in this area and to give historical guidance to education and practice in this new era. There will be about 12 keynote speakers to present their research in this symposium. They could present what can represent their best interests and achievements. The themes could be, but not necessary as follow:

- 1 New development in the teaching and research in architectural history and research
- 2 Methodology in architectural history and theory
- 3 Exchange of experience and achievement in teaching and research, such as teaching plan, reading materials, renovation
